

## Form Data Service

API: Upcoming Meetings

URL: <http://www.puntingform.com.au/api/formdataservice/getmeetings/{date}?APIKey=xxxx>

Output: JSON

Description:

Gets a list of all upcoming meetings.

Output Format:

`Dictionary<string, string>`

API: Upcoming Fields

URL: <http://www.puntingform.com.au/api/formdataservice/getfields/{track}/{date}?APIKey=xxxx>

Output: CSV

Description:

Gets the basic fields listing for all upcoming meetings.

Example:

Race Number, Tab Number, Horse, Weight, Barrier, Jockey, Trainer

```
1,1,Acadane,54.5,2,Anthony Allen,Gregory Cornish
1,2,Magic Cadre,53.5,4,Maija Vance,L J Mayfield-Smith
1,3,Jaspers Magic,56,1,Michael Cahill,R L Heathcote
1,4,Meteorologist,56,5,Jimmy Byrne,Marcus Wilson
1,5,Oosthuizen,56,8,V A Colgan,K M Schweida
1,6,Zonarfor,50,3,Travis Wolfgram,J P Wallace
1,7,Bolting Bandit,55.5,9,Bobby El-Issa,D J McLean
1,8,Strawberrychampane,51.5,6,Kirk Matheson,S J Bennett
1,9,Sister Souss,54,7,Timothy Bell,John Thompson
```

API: Upcoming Form - Text

URL: <http://www.puntingform.com.au/api/formdataservice/getformtext/{track}/{race}/{date}>

Output: CSV

**Description:**

Gets form for all upcoming meetings. The last 5 runs of each horse are returned.

**Example:**

```
meeting date,track,race number,start time,age restrictions,class
restrictions,weight restrictions,race prizemoney,horse name,horse age,horse
sex,horse number,horse jockey,horse barrier,horse trainer,horse weight,horse
claim,horse last10,horse record,horse record distance,horse record

}
```

## Ratings Service

API: Quick Guide Ratings

URL: <http://www.puntingform.com.au/api/ratingservice/getratings/{track}/{date}?APIKey=xxxx>

Output: JSON

### Description:

This API requires a subscription to our ratings service. The service outputs the data that is available in our Meeting Quick Guides along with the run style and settle position information that is derived from the ratings sectional times and available in our form guide.

### Output Format:

```
public class ABettorEdge
{
    public virtual int ABettorEdgeId { get; set; }
    public virtual int MeetingId { get; set; }
    public virtual int RaceNo { get; set; }
    public virtual bool Reliable { get; set; }
    public virtual int TabNo { get; set; }
    public virtual string HorseName { get; set; }
    public virtual int RPR { get; set; }
    public virtual double RPP { get; set; }
    public virtual int WP20R { get; set; }
    public virtual double WP20P { get; set; }
    public virtual int TP20R { get; set; }
    public virtual double TP20P { get; set; }
    public virtual int WPTP20R { get; set; }
    public virtual double WPTP20P { get; set; }
    public virtual int RSFI { get; set; }
    public virtual int ScRank { get; set; }
    public virtual double SPrice { get; set; }
    public virtual int PFScore { get; set; }
    public virtual int PrSe { get; set; }
    public virtual double AHSP { get; set; }
    public virtual string RunStyle { get; set; }
    public virtual string PdfFilePath { get; set; }
    public virtual DateTime PublishTime { get; set; }
    public virtual TrackCondition TrackCondition { get; set; }
    public virtual double ClsDiff { get; set; }
    public virtual int Barrier { get; set; }
    public virtual double RPT { get; set; }
    public virtual double RSPT { get; set; }
    public virtual double ATWC { get; set; }
    public virtual double AveATWC { get; set; }
    public virtual double ART { get; set; }
    public virtual double ARST { get; set; }
}
```

## Scratchings Service

API: Live Scratchings

URL: <http://www.puntingform.com.au/api/scratchingservice/getallscratchingtext?APIKey=xxxx>

Output: CSV

### Description:

A live scratchings feed that is updated every 30 seconds.

### Example:

```
Scr,131009mornington01,G,2,5,6,  
Scr,131009mornington02,G,1,  
Scr,131009mornington03,G,4,  
Scr,131009mornington04,G,1,10,12,  
Scr,131009mornington05,G,7,  
Scr,131009mornington06,G,1,4,10,12,  
Scr,131009mornington07,G,8,11,13,17,18,  
Scr,131009mornington08,G,4,9,13,18,
```
